### **DETAILED ACTION**

1. The Amendment filed December 11, 2006 has been received and considered.

#### ***Claim Objections***

2. Claim 13 is objected to because of the following informalities: in line 16 of Claim 13 the phrase "a closing device" should read —one of said closing devices—to avoid any potential 112 second paragraph issues, in line 19 of Claim 13 the term "the second connecting channel" should read —a second connecting channel—to avoid any potential 112 second paragraph issues, also in line 19 of Claim 13, the term "a closing device" should read —another of said closing devices—again to avoid any potential 112 second paragraph indefinite issues, and in line 20 of Claim 13 the term "an atmosphere" should read —the atmosphere—to be consistent with the previous claim terminology of the element. Appropriate correction is required.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 14-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 14 recites the limitation "the first connecting channel" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 15 recites the limitation "the first connecting channel" in lines 3 and 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 16 is rejected merely due to its dependency from Claims 14 and 15.

***Allowable Subject Matter***

5. Claims 10-12 and 17 are allowed.
6. Claim 18 is objected to as being dependent upon an objected to base claim 13, but would be allowable if Claim 13 was rewritten to overcome the above mentioned objections.
7. Claims 13-16 and 18 would be allowable if rewritten or amended to overcome the above mentioned claim objections and rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
8. The following is a statement of reasons for the indication of allowable subject matter: While WO document no. 01/40042 to Beck discloses most all the features of the instant invention as outlined in the first office action, as stated in applicant's remarks filed with this amendment, Beck does not disclose his new claim limitations of the two connecting channels being arranged as one through-bore through the accommodating member nor that the closing devices are arranged opposite each other at opposite lateral surfaces of the accommodating member. It is for these reasons that applicant's invention defines over the prior art of record.

***Conclusion***

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
